

UVend Group of Companies Appoints Fastcorp as Digital Locker Manufacturing Partner

Manufacturing Partnership

BURLINGTON, ON CANADA. May 10, 2017 – www.uvendgroup.com (the “Company” UVG) is a digital and hardware company providing innovative marketing solutions for Digital Self-Serve Kiosks and Digital Grab N’ Go Merchandisers. UVG develops tech platforms to enhance profitability, customer engagement, and customer data collection. UVG's current flagship product, Frozen Pond Premium Ice Cream, is currently being considered by major retail outlets across Canada. UVG is pleased to announce today that we have appointed Fastcorp as our manufacturing partner of our “Proprietary Digital Lockers”.

“Fastcorp”, based in CT is UVG’s kiosk manufacturer of choice, and through their in-house metal fabrication they will be manufacturing the Digital Lockers to our direct specifications. We then install our exclusive wireless modems, a 22” digital touch screen and reception platform. For our sports branded kiosks and retail partner kiosks, Fastcorp will attach the UVG “Digital Locker” to their automated self-serve kiosk and apply an all in one graphic wrap. “Through our Burlington, Ontario head office, we will manage all digital content from our Digital Command Centre for all operating kiosks on a global basis, says Paul Neelin, Founder of UVG.

“We are pleased to be working with UVG not only as their manufacturing partner, but as a reseller of the Digital Lockers to current and future national and independent vending machine operators”, says Brian Weinstein, President of Fastcorp. It’s a simple add-on to any vending machine, and the Digital Locker also offers operators additional secure dry storage.

ABOUT UVEND GROUP OF COMPANIES

ABOUT FASTCORP

Fastcorp LLC is a privately held company which has quietly become the world leader in frozen vending machine sales and a pioneer of innovative vending technology. Fastcorp was founded on a powerful idea – to make ice cream and frozen food vending as ubiquitous as snack foods and soda! We are making this happen through reliable, easy-to-use, and energy efficient equipment along with new approaches for product storage and distribution. www.fastcorp vending.com
